

Right Guide

This column is designed to give official VA answers to veterans' readjustment problems. Send questions to RIGHT GUIDE, 1041 South Broadway, Los Angeles 15, Calif.

Business loans for about everything in the catalogue from bulldozers to fishing boats and from shoeshine stands to beauty parlors have been made through the VA Los Angeles office, according to Ayers D. du Bois, regional loan guaranty officer.

Mr. du Bois said Southern California lending agencies had loaned veterans a total of \$575,930.46 and the VA had guaranteed \$74,130.64 of this amount.

Veterans who meet eligibility requirements of the Servicemen's Readjustment Act may apply for loans for "building, supplies, equipment, machinery, tools, inventory, stock in trade, or for cost of construction, repair, alteration or improvement of any realty or personality used for such purpose, or to provide funds needed for working capital."

To obtain a government guaranty for a business loan, an eligible veteran will get the deal all set—have all the facts and costs for his proposed enterprise in writing, then apply for his loan from any established lender. The lender and the VA carry on from there.

Right Guide has selected a few of the many questions asked about loans. Any veteran who does not find an answer to his particular problem about loans (or any other readjustment question) in this column, will receive a prompt reply by writing RIGHT GUIDE.

Question: May a veteran pay off a guaranteed loan before it becomes due?

Answer: Yes. Five veterans by the VA in Southern California have paid off these loans in full.

Question: Is there a limit on the size of the loan?

Answer: No. The limit is on the amount which the VA may guarantee.

Question: Must a veteran put any of his own money into a business, a home, or a farm to get the guaranty?

Answer: This is not the requirement for guaranty. It is a question which is settled with the lender. The only bearing it has on a guaranty of a loan is that in the case of a farm or business it may affect the likelihood of the veteran's success in the venture.

Overtime Work For Veterans Certificates

Several hundred Veterans Administration employees have volunteered their services and are working overtime, week-ends and night shifts to clean up the backlog of paperwork incidental to the issuance of certificates of eligibility to veterans in the Los Angeles area, L. C. Chapman, regional manager, announced here today.

This volunteer work by regular V.A. employees, Chapman said, is doing much to cut down the backlog of training applications and to speed other services to veterans. In addition, the Veterans Administration is hiring part-time workers for shifts of four hours each, and a fully manned night shift starting at 10 p.m. and ending 7 a.m. will be put to work in the next few days.

To emphasize the increasing work load of V.A. offices in Los Angeles, Chapman pointed out that 2000 veterans daily, or 50,000 monthly, come to the downtown office at 1041 South Broadway. A big percentage of these veterans are out-of-state residents.

OIL WORKER HURT

A. K. Muir, 808 1/2 Amapola ave., local oil field worker, was taken to the Torrance Memorial hospital Saturday following an accident which occurred during a rigging job on an oil derrick at 238th st. and Eshelman ave. Muir sustained cuts and a compound fracture of his left arm when struck by a wrench during the operation.
